

Namaste Earth Walkers and Star Travelers !!

We have navigated around the Chakana, experienced the opening of each gateway, which has gathered and amplified the energy to arrive at this culmination moment.

Completing the exploration of the Four Directions we now move into the Center, which is the balancing point, the Still Point, the Center Within. This allows us to lift through the Inter-Dimensional Portal into our Cosmic Connection.

There is so much here that we could spend weeks unpacking and discovering more. In fact, it is actually a way of life, and a lifetime practice for those who held and maintained these teachings.

The Hanaq Pacha is revered for the Superior Wisdom and Guidance that is held there. To be able to lift and connect into this realm, and to tune into the Shining Ones was practiced daily. To receive information and inspiration through the Rainbow Bridge, and bring it back to the community, to live in the best way possible was a common practice.

Communing with the Star brothers and Sisters to receive useful information for life was common and expected.

In fact, remembering our Cosmic Origins, our journey back to Source has been a fascinating one.

In this specific moment, in our lifetime, to open and Remember ourselves as Divine, is a gift. We are just beginning to remember our Galactic Heritage.

In Perú, the Sacred Directions and the Elements, and the teaching of the Interweaving of all Life has been practiced and preserved so that We would Remember when the time came.

We now have the opportunity to connect into our Galactic Chakra's and expand our Vision of who we actually are.

As we lift into the higher frequencies, we can Ascend and move through the Infinite Portal of Kuyichi... the Rainbow Bridge.

This represents the cosmic connection between the Highest Realms of Divine Light and the Pachamama.

Literally bringing Heaven to Earth, and the other way around, lifting from Earth to connect through the Infinite Portal, we can discover our Divine Nature.

This session will weave it all together to find the Balance, the Center Point Within.

As always, I am excited to share all of this with you, because it has brought so much meaning and balance to my own life.

I will see you in the Portal.
